DETAILED ACTION

Request for Continued Examination

A request for continued examination under 37 CFR 1.114 including the fee set forth in 37 CFR 1.17(e) was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17 (e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 9, 2006 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 19-22 are rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "the outer segment" (claim 19, second line from the end) lacks clear antecedent basis and it is not particularly pointed out what structure is being referred to since there is no reference to give notice as to what structure is being described. It is noted that this limitation corresponds to original claim 12 that depended from original claim 11. Original claim 11 introduced "an outer segment" in line 3, a term not found in the original independent claim and thereby particularly pointed out what was being referred to by "the outer segment" in original claim 12. Claim 19 requires proper introduction of the term "the outer segment". The remaining claims are indefinite because they depend from an indefinite claim.

Allowable Subject Matter

Art Unit: 3677

Claims 19-22 would be allowable if amended to overcome the rejection under 35 U.S.C. 112 identified above.
